

OBJECTIVE

This is a diversified balanced fund which delivers real returns to clients through exposure to offshore asset classes such as equity, bonds, property and cash. The aim of the portfolio is to provide a diversified source of return relative to a typical SA balanced fund. The returns are generated in rands, and as such investors are exposed to currency fluctuations where a weakening rand serves to boost local returns. The risk profile of the portfolio is also high as a consequence of the currency volatility.
